The school seeks to support its mission statement working within a national framework for educational inclusion. This applies to all areas of the school including EYFS. This is provided by:

We aim to develop a culture of inclusion and diversity in which all those connected with the school feel proud of their identity and able to participate fully in school life. To that end we embrace the RADIO toolkit to equip all members of our community with the skills to participate in building a respectful culture.

3. Introduction

Under the Special educational needs and disability code of practice : 0 to 25 years (2015), a child or young person has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for him or her.

St Augustine’s Priory has three key duties in providing for pupils with a disability.

- not to treat disabled pupils less favourably for a reason related to their disability;
- to make reasonable adjustments for disabled pupils, so they are not at a substantial disadvantage;
- to draw up plans to show how, over time, we will increase access to education for disabled pupils.

This policy sets out the proposals of our school to increase access to education for disabled pupils in the three areas required by the planning duties of the Equalities Act 2010:

- a) increasing the extent to which disabled pupils can participate in the school curriculum;
- b) improving the physical environment of the school for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the school, and
- c) improving the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled.

4. What defines ‘reasonable adjustments’?

In determining what is reasonable the school will have regard to:

- The financial resources available to the school
- The costs of any particular alteration to the premises, staffing arrangements, or special equipment required
- The practicality of making reasonable adjustments
- The extent to which aids and services will be provided via an Education and Health Care Plan (EHCP), or by provision paid for outside the school’s resources
- Health and Safety requirements

RADIO - R – Respect - A - Active listening - D - Dialogue not debate - I - Where am I in this? - O - Oops/Ouch

- The interests of other pupils

5. Statement of intent

St Augustine's Priory is committed to resourcing, implementing, reviewing and revising the Accessibility Plan every three years. Regular disability access audits are undertaken as part of this process. Any future building developments or renovation projects will be compliant with the regulations and guidance for accessibility.

6. What constitutes a disability?

The Equality Act (2010) defines disability as when a person has a physical or mental impairment which has a substantial and long-term adverse effect on that person's ability to carry out normal day to day activities.

This definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer (SEND CoP 2015).

7. Identifying the needs of pupils

All children with additional needs (as defined by the current Equalities Act 2010) are recorded on the SEND register as detailed in the Policy for Pupils with SEND and EAL.

As part of the admissions process, staff will meet with parents to discuss whether or not a prospective pupil will be able to access the curriculum and what reasonable adjustments can be made to facilitate this. In determining this, the school may advise additional assessments for further clarification. If after consultation the school decides that it would not be able to discharge its legal and moral responsibilities to educate the prospective pupil and/or contractual duties to the parent(s), St Augustine's Priory will be unable to offer a place.

8. School Development Planning priorities relevant to the Equalities Act 2010

a) Increasing the extent to which disabled pupils can participate in the school curriculum:

- short, medium and long term planning (more than 12 months) to meet the needs of every child
- continued collaboration with external agencies and parents
- raised whole school awareness
- support and commitment of all staff
- peer support
- high expectations

- shared good practice
- full access to curriculum and extra-curricular activities
- progressive use of ICT

b) Improving the physical environment of the school for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the school.

Possible considerations may include:

- installing ramps, handrails, lifts and improvements to doorways insuring suitable and sufficient access and egress
- improving lighting, signage, colour contrast, acoustics and floor coverings
- improving toilet, washing and changing facilities
- providing accessible transport when required

c) Improving the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled:

Timetables, key word lists, support materials, writing frames, lesson notes, differentiated tasks or outcomes, special exam arrangements for instrumental, internal and external exams, LSAs, specialist support tuition.

At all times, St Augustine’s Priory will act within a reasonable time frame and take full account of:

- specific impairments
- preferences expressed by disabled pupils or their parents advice from teachers
- advice from other designated professionals

The school will maintain a three year Accessibility Plan to ensure that current and future planning requirements are addressed. The Plan will be reviewed on an annual basis.
